Staff, consultants and the Committee for the Future continue work on Phase 2, designed to assess and test several important policy areas.

Staff and consultants have reviewed and summarized the community feedback from open houses in July, covering topics such as living, working, shopping and the southwest area of Cary.

November open house discussions touched on issues such as transportation and downtown development. The public input results and the staff/consultant preliminary draft policies will be discussed at the January 2015 meeting.

**What's Next?**

The "Community Directions Report" and presentation for Council will be presented at work sessions in February and March. This will include draft policies for all six topic areas and summary of community input results.

Council will be asked to provide direction to the team.

- **4 Office Projects**

### Sign Permits

156 sign permits were processed in Q4 2014, compared to 143 in Q4 2013.

### Development Liaison Case Activity (4th Quarter)

The Development Liaison program continued to expand its presence in Cary’s development community during the 4th quarter, participating in events such as Cary Chamber of Commerce Business Expo.

### Case Type Statistics

- **Building Permits (90%)**
- **Other (3%)**
- **Inquiry or pre-application (7%)**

### Development Liaison Service Satisfaction Survey

This customer feedback survey helps collect information that will be used to further refine Development Liaison services to best meet the needs of our development customers.
In Q4, the average Single Family Dwelling was 3,665 sqft. and valued at $198,165, compared to Q4 in 2010 the average Single Family Dwelling was 3,275 sqft. and valued at $165,871.

Single Family Dwelling Permits by County:

- 195 SFD permits in Wake County
- 9 SFD permits in Chatham County

Total Inspections by Quarter
291 CO's were issued for new SFDs in 43 neighborhoods

4 CO's were issued for 157 multi-family units

12 CO's were issued for new nonresidential projects

New Nonresidential Projects included:
Maynard Rd. Self Storage (79,092 sqft.)
Restaurant Depot (74,215 sqft.)
Panera Bread (4,545 sqft.)
Transportation Projects

Streetscape Improvements: S. Academy St. & Dry Ave
Projected Completion Date: Spring 2016

Green Level West Road Widening Project
Projected Completion Date: Fall 2017

Morrisville Parkway Extension & NC540 Interchange
Projected Completion Date: 2018

Cary Parkway and High House Road Intersection Improvements
Projected Completion Date: Fall 2016

Note: staff is working with NC Turnpike Authority to secure an additional $12.5M to build the interchange portion of the project.
Carpenter Fire Station Road Bridge & Intersection Improvements

Projected Completion Date: Spring 2018

Walnut Street Pedestrian & Traffic Improvements (US1/64 Overpass)

Projected Completion Date: Fall 2016

Town of Cary received an Honorable Mention at the GoTriangle Golden Modes Awards for being an outstanding employer offering a well-rounded commuter benefits program for employees.

4th Quarter Ridership

71,856 Fixed-route trips
9,362 Door-to-Door trips

C-TRAN

C-TRAN and Dorcas Ministries continued their support for the community with the 2nd annual C-TRAN Food Drive. Over 1,200 pounds of food was donated in the course of one week. This food donation is expected to help over 4,000 families in Cary.

Facilities & Park Projects

C-TRAN expanded service hours in July 2014, through 10 p.m. and has seen steady increases in ridership. Typically, new levels of service take long periods of time to establish comparable forms of productivity relative to the original system. In only 6 months, the extended services are already operating at 40% of the overall system average during the same time period in the previous year.

Projected Completion Date: Summer 2017

Bike & Hike Mobile App
The Town launched its first Bike & Hike app as a fast and convenient way to find biking and hiking routes and trail conditions. The total cost of the project is $40,991.36 and was funded through the FY2012 Community Investment Bonds.

Available for free download from Apple and Google Play stores; keyword search "bike hike cary"

"Find Me" button uses geolocation and allows the user to identify routes and trails nearby

Mobile users can save search results to "Favorites" for easy retrieval
Construction work at the water treatment plant and raw water pump station sites is ongoing. In December, the raw water intake screens in Jordan Lake were replaced (pictured). The contractor continues to make progress on major site activities such as construction of the new pre-ozone contactor building (pictured.)

Interbasin Transfer (IBT)
The Towns of Cary, Apex, and Morrisville, and Wake County notified the NC Environmental Management Commission (EMC) in late 2013 of our intent to seek a modification to our IBT.

In December 2014, NCDENR published the Environmental Assessment and a Finding of No Significant Impact.

The first public hearing was January 7th in Apex, which is followed by another hearing in Fayetteville on January 22nd.

The modifications requested will align the certificate with changes to the IBT law from 2013, as well as increase the limit to meet water resource management needs through 2045.

Jordan Lake Allocation
Cary and Apex, along with other applicants, submitted our Round 4 Jordan Lake Allocation Application to NCDENR in November 2014.

Under the preferred alternative, all water suppliers upstream and downstream of Jordan Lake are able to meet projected needs through 2060.

NCDENR expects to make recommendations regarding the allocations to the EMC Water Allocation Committee at their March meeting.

Beat the Peak
The campaign saw a 200% increase from past years, with 146 customers requesting an irrigation performance checkup in 2014.

Sustainability
In December a revamped sustainability webpage was launched. The page serves as an intuitive “jumping off point” for all sustainability-related information across the Town.

Sustainability initiatives occur across the Town in many departments; we have a new symbol to help highlight sustainable projects and metrics across this quarterly report to Council.

The Electric Vehicle Charging Station Pilot ended and on November 20th. Council approved two additional years of free public charging at the three electric vehicle charging locations on Town property.

**Water Line Repairs**

Emergency crews repaired broken water pipes at Westhigh Street (8-inch pipe) and Hunter Street (6-inch pipe) in October.

80-feet of curb, gutter, or sidewalk was replaced and more than 300-feet of damaged asphalt was removed.

The repair of both line breaks cost $89,409.

---

Median Plantings
Clean Fuel Technology Grant from NC Solar Center

In June 2014, grant funding was used to install a variety of technology aimed at increasing overall fleet average mpg by 20% as well as overall energy use. Staff estimated fuel reduction from this pilot to be approximately 15,000 gallons per year.

The initial six month average increase in fuel economy through the use of this technology was approximately 19%. While the fuel reductions during this 6 month period are about half the original estimates (3,289 gallons), staff will continue to work with vehicle drivers to improve the use of fuel efficient driving habits.

Even with results less than anticipated, the Town will still see a four year payback period on the $40,800 the Town contributed to this pilot program.

- 57 telematics GPS units in Public Work trucks
- 22 trucks were outfitted with anti-idling batteries

In October, the Town of Cary was honored as a NC Smart Fleet Leader by the NC Clean Technology Center and the North Carolina Department of Transportation for our efforts to increase our fleet’s fuel efficiency.

Emergency crews repaired a 16-inch ductal iron pipe along Evans Road. This required replacing 60-feet of pipe due to a boring machine scraping the coating on the exterior of the pipe in 2010. This conduit was installed by AT&T.

Median Plantings
In September, Council adopted an official policy regarding the installation of plantings on medians on Town of Cary roads or NCDOT roads within Cary Town limits. This policy allows for a systematic approach for staff to prioritize median planting projects for existing or new medians. Public Works completed five median plantings in the fall. The FY15 budget for this project was $150,000 and Public Works crews accomplished the work for $103,000.

Nitrogen and phosphorus removal percentages at all three water plants exceeded minimum state permit levels, resulting in an exceptionally high quality treated waste water being returned to the environment.

During 2014, the SCWRF Thermal Biosolids Drying Facility processed a combined total of 32.6 million gallons of biosolids from NCWRF, SCWRF, and the Town of Apex, which produced 3,694 dry tons of Class A, Exceptional Quality pelletized biosolids product for customers to use as an organic soil amendment and fertilizer.

This year, Cary Police led the state with approximately 947,000 dosage units collected, topping Durham’s collection last year of 773,500 dosage units.
The 6% decrease in overall reported offenses can be attributed to a drop in all crime categories, in particular, Part 1 offenses.

Overall, there was a decline in Part 2 crime offenses with most substantial decreases in alcohol offenses, simple assaults, sex offenses and family offenses.

The chart to the left shows the Part 1 crime distribution over 2014 by district.

The charts above depict year over year case status for offenses that have been assigned to the Criminal Investigations Unit for follow-up.

Cary's Traffic Safety Team participated in a school bus passing enforcement operation, which resulted in 17 charges in Town during a single morning commute.

The Town of Cary receives points for participating in specific enforcement and education initiatives as part of the Governor's Highway Safety Program.

Points are accumulated and can be exchanged for police equipment. In 2014, Cary Police has purchased two LIDAR (Light Detection And Ranging) units, two RADAR units, and 11 portable breath test units.

Town engineers and NC DOT made changes to the stop light at the intersection of Hwy 55 at McRimmon for students accessing Panther Creek High School. When students are traveling to and from school, the light will function as a solid green left protected arrow. Other times during the day it will function as a yellow left arrow.
Community Services Unit (CSU)

The biggest difference in CSU activities is the increase in safety talks and community meetings. That is the result of the outreach efforts made by CSU following various crime trends in conjunction with annual HOA meetings across Town.

Cary PD went OVER THE EDGE for Special Olympics!

Chief Bazemore went 'Over the Edge,' which helped raise $2,000 toward the cause, earning them the privilege to do this!

Project PHOENIX

The Project PHOENIX team and the Triangle Apartment Association hosted the 4th Property Manager’s Meet & Greet at The Cary on October 15th. Fifteen property managers and staff members from partnering communities attended this interactive and network sharing event.

42 apartment complexes participating
35 events hosted by Project PHOENIX and PRCR at various communities during the 4th Quarter

School Resource Officers

Green Hope High School completed the "Round About" project, training student drivers on how to maneuver through a roundabout.

40 Reported Crimes in Cary Schools during 4th Quarter, including:

- 9 assaults
- 2 weapons violations
- 6 larcenies
- 3 vandalisms
- 1 sex offense
- 4 drug violations
- 5 disorderly conduct
- 10 other

"iTune Out Drugs"

In recognition of Red Ribbon Week, the Town hosted the annual Red Ribbon poster contest. Students from all six of Cary’s middle schools submitted artwork with this year’s theme: "iTune Out Drugs." The top three winners from each school were crowned at a reception at the Cary Arts Center. Miss Sophie Sun from Davis Drive Middle School earned the grand prize.
EMS Critical Interventions

Critical interventions are direct actions taken by fire department staff specific to intervening in immediately life-threatening medical conditions.

12 Medications, including: naloxone, epinephrine and glucose

30 Procedures, including: assisted ventilations, tourniquet application, CPR, choking, and defibrillation

Fire Highlights

Operation Save-A-Life, in conjunction with ABC-11 and Kidde, Inc., held a press conference and distributed fire detectors at Station 1 in October.

October was National Fire Safety Prevention Month. Staff conducted 8 puppet shows at elementary schools and visited numerous daycares and preschools.

Containment indicates the extent to which a fire spreads beyond the point of origin prior to extinguishment by Fire personnel.

New Data Mapping Software

The Town is transitioning from the current mapping GIS software to the ESRI Platform, featuring ArcGIS. This transition is aimed at improving the ability of citizens and staff to collect, share, understand and analyze information in a geographic context. Maps, mapping tools and embedded geographical help make decisions that will save money, time, and in some cases, even lives. The Town will use the new ArcGIS to improve decision making, service delivery, and citizen engagement.

ArcGIS includes a suite of apps to increase user productivity. Mapping apps will allow users to collect and share information across the organization and with the public. The ESRI Platform integrates with existing systems to map and enrich data. The ESRI software package is budgeted to cost $165,000 and will be introduced incrementally with the plan to be fully implemented with the launch of the new website.

Townofcary.org Update

In the FY15 annual capital budget, Council appropriated $500,000 for a website overhaul. The project has begun and is expected to be complete in Fall 2016.

The new website is intended to develop a site that allows citizens, customers, visitors, Council, and staff to share and exchange information that is current and fresh in a timely, efficient and cost-effective manner.
WakeMed Soccer Park

The Carolina Railhawks played two home matches in October and November, with a total attendance of 6,000.

There were three major cross country events and seven "cause" runs during this quarter. All combined, WakeMed hosted 4,000 runners and over 8,000 spectators during the fourth quarter.

The stadium hosted the ACC Men's Soccer Championship in November and the NCAA Men's College Cup in December. This is the fourth time the men's championship has been held in Cary, but the first time since 2009. Total attendance for championship games was 15,000.

Cary Tennis Park

USA Baseball National Training Complex shuts down field use from mid-October through early-February for maintenance and cold weather.

- **206** Adults participated in the Western Wake Tennis Association Harvest Tournament, a 32% increase.
- **403** Participants registered in the Junior Team Tennis for Fall 2014, an increase of 134 players from Fall 2013.
- **130** USTA League teams registered to play in 2014, an increase of approx. 20 teams from previous Fall season.
- **226** Players, aged 8-18 participated in the Cary Winter Championship, a 25% increase from last year.

Cary Senior Center

Cary Senior Center hosted a Senior Health Insurance Information Program (SHIIP) "Town Hall" for seniors to learn about the Medicare Open Enrollment period and the services SHIIP provides.

In partnership with "Home Instead," Cary Senior Center hosted "Be A Santa for a Senior" holiday tree and wrapping party. Over 400 gifts were wrapped, tagged and delivered to over 200 Wake County older adults who were celebrating the holidays alone.
Cary Teen Council

Cary Teen Council members volunteered over 3,000 hours to local community organizations, as well as hosted a variety of events.

Over 800 members of the community visited "Herbert's Haunted House" at Herb Young Community Center.

Santa's Workshop

Santa’s Workshop provides children the opportunity to have their picture taken with Santa. Food or cash donations for admittance raised $427 for Interact and filled two shopping carts of food to be donated to Kroger’s food drive.

Hemlock Bluffs

Adult nature programming increased 11% and participation numbers grew 3%, which caused waitlists for the 4th quarter of 2014. Adult, and especially senior, participation in nature programs continues to remain strong and is growing.

Friends of Hemlock Bluffs received a $9,000 grant from the Jandy Ammons Foundation for improvements to the Children’s Nature Trail.

Grant Award

Specialized Recreation

The annual Monster Mash Dance for middle school ages and older was held with 50 persons with disabilities, which increased participation from 2013 by 25%.

Hocus Focus Workshops!

Thirteen persons with disabilities participated in an "AMAZING" evening session that taught participants skills in magic to encourage creative problem-solving, critical thinking and enhanced observational techniques. These magic tricks provided a strategy for building teamwork and self-esteem.

</tbody>
</table>
Treasury Management
Due to conservative interest income budgeting, interest earnings for FY2015 are projected to exceed budget by almost $500,000 across the General Fund, Utility Fund and Capital Reserve Funds. While the Town's total interest income should approach $2 million for the fiscal year, it still remains a small source of revenue for the Town compared to pre-2008 when interest income was $10 million or more.

Cash and investment portfolio balance as of December 31, 2014 was just over $434 million.

Cary maintained its AAA bond rating with Standard & Poors, Moodys, and Fitch.

Utility Revenue Bond Sale
Preparation for the February sale is underway. The water treatment plant expansion project will require $40 million in new debt that Council has appropriated. The debt service has been incorporated into utility rate planning. Staff is also making plans to refinance approximately $16 million of existing revenue bonds for the possibility of $1.5 million future interest expense savings spread over the next 16 years.

The final outcome of our refinancing plans will depend on the interest rate markets in February. Municipal bond interest rates remain favorable for fixed rate long-term commitments. Credit quality will continue to be more of a factor in market access and rate differentials, and the value of Cary's top bond ratings will help control interest costs for our rate payers.

Updated FY15 Revenue Projections
General Fund revenues for FY15 currently are projected to be $1.8 million (1.3%) above the budgeted level.

Sales tax growth thus far is above projections and is expected to moderate later in the year, resulting in an additional $1.2 million in revenue.

Actual property tax assessments were higher than projected and collections are expected to be $794,000 above budget as a result.

Permit and fee revenue is projected to be $585,000 below budget, which reflects slower than expected rates of growth in both residential and commercial construction.

Economic Conditions
Economists, such as Dr. Walden at NCSU, are predicting continued growth in the NC economy for 2015. The aspect of the growing State economy that may have the most effect on revenues in Cary is the housing sector. While construction continues to grow, growth is at lower rates than over the last two years. The slowdown of residential construction is affecting all of Wake County. This trend will affect Town revenue from both building permits and sales tax.
This year, the Downtown Development Manager set up a tent in Ashworth Village to welcome Small Business Saturday shoppers by handing out downtown maps along with free coffee and treats from downtown businesses.

Gather, a downtown retailer, received national attention from American Express and Etsy for an event called "Made by Men," an outdoor market featuring small businesses owned by men who create their own products such as leather goods, peppermint bark and custom cutting boards.

Council member Lori Bush shopped downtown and presented small businesses with the Small Business Saturday Proclamation. Downtown received positive media coverage as a result of these efforts.
Belle at the Jones House installed new signage and received good press from the N&O

Crosstown Pub

Opening Soon!
