Project Description

*Trimble Avenue Affordable housing
Habitat of Humanity of Wake County has partnered with the Town of Cary for the last 15 years to provide over 50 new homes for Cary residents throughout the town. The current project at Trimble Avenue proposes to build a further 7 single family homes for sale following the Habitat model of residents volunteering to build in “sweat equity” during the construction of the homes. This will be the largest Habitat project the Town has funded and will make a significant contribution to affordable housing in Cary.*

Community Development Block Grant (CDBG)

Supporting communities and neighborhoods in Cary and across the US
