TRANSPORTATION DEVELOPMENT FEES

The Town of Cary charges transportation development fees for properties developing within the Town or its extraterritorial jurisdiction (ETJ). Transportation development fees are levied at the time of permit issuance in order to help address the costs associated with the transportation infrastructure needs of new development. These fees vary based on residential, multi-family and commercial development type and size.

For more details related to the Town’s transportation development fees, see section 7.11 of the Town of Cary’s Land Development Ordinance at

VEHICLE LICENSE FEES

The fee for registration of motor vehicles, as required in Town Code Chapter 12, Article II, Section 12-27, shall be thirty dollars (\$30.00) per motor vehicle registered in the Town of Cary.

PAYMENT-IN-LIEU FEES

Payment-In-Lieu of Land Dedication Fees

In residential subdivisions, a portion of the land being subdivided will be required for park land dedication, or a payment-in-lieu of dedication is required. This dedication or payment is intended to serve the recreational needs of residents.

The payment-in-lieu is equivalent to the value of 1 acre for every 35 units (1/35th of an acre per unit) or any portion thereof (# units / 35 = acreage owed).

Number of units/35 = acreage to be dedicated

Acreage to be dedicated * the appraised per acre value of the entire parcel = Recreation Fund Payment amount

Once the site plan is approved and the plat is submitted for review, the Town will have the parcel appraised and that's how the per acre value is determined.

Payment is due prior to approval of a plat or recording any lots to subdivide out your lots.

For a multi-family recreational, fund payment is required. The payment is a flat fee per unit and is subject to change on July 1 of each year.

The applicant will pay the rate in effect at the time the plan is approved.

The anticipated rate as of July 1, 2019 is currently \$2,876/unit. That fee is calculated using 65% of the 5-year rolling average of subdivision recreation fund payment per unit.

Payment must be made prior to building permit issuance.

Public greenway construction and greenway easement dedication shall be credited towards park land dedication payment-in-lieu fees in accordance with LDO 8.2.3 (Credits do not include street-side trail construction or easement/dedication)

Street and Sidewalk Payments-in-Lieu

The Town of Cary's Land Development Ordinance requires that developers of subdivisions construct street and sidewalk improvements within their developments and on adjacent property frontage that conform to Town standards. A payment-in-lieu of street or sidewalk construction may be made to the Town should the developer prefer not to construct the required street/sidewalk improvement. In these instances, the developer must provide the Town with a sealed engineer's estimate for the work to be constructed. The Town then reviews the estimate to ensure that it is in accordance with established standards. Should everything be in order, the payment-in-lieu request is approved by the Town and funds are accepted. Payments-in-lieu of improvements must be paid prior to issuance of the construction package. For more details related to the Town's street and sidewalk improvement requirements, see section 8.1.5 of the Town of Cary's Land Development Ordinance at:

Street Lighting Payments-in-Lieu

The Town of Cary's Land Development Ordinance requires that a property owner or developer install street lighting along all proposed streets, public or private, and along all existing streets which adjoin the property, in accordance with Town of Cary Policy Statement No. 13. A payment-in-lieu of street light installation may be made to the Town of Cary should the Town's Transportation and Facilities department determine that the street lights cannot be installed until a later date. In these instances, the property owner or developer must provide the Town

with a sealed engineer's estimate for the lights to be installed. The Town then reviews the estimate to ensure that it is in accordance with established standards. Should everything be in order, the payment-in-lieu request is approved by the Town and funds are accepted. Payments-in-lieu of improvements must be paid prior to issuance of the construction package. For more details related to the Town's street lighting requirements, see section 8.1.5 of the Town of Cary's Land Development Ordinance at:

UTILITY DEVELOPMENT FEES:

Utility related capital fees recoup the Town's past and future investments in utility systems associated with the capacity of new users or increased capacity of existing users. These fees are associated with the capital cost of the utility systems for water, sanitary sewer and reclaimed water which includes but is not limited to infrastructure such as lines, treatment plants, pumping systems, tanks, control systems and maintenance facilities. The ability to charge water and sewer development fees, also known as system development fees, is granted via [NC Session Law 2017-138/House Bill 436](#). In compliance with this legislation, the Town hired a qualified consultant to conduct a system development fee analysis. The [final draft analysis](#) was posted to the [Town's website](#) where it was open to public comment. A public hearing was conducted on May 3, 2018 regarding the draft analysis results. The consultant concluded that the single comment received did not materially impact the conclusions and recommendations made by the analysis.

System development fees are collected when new demand is generated through building permits for new development, requests for new meter boxes, requests for meter installation, or requests for new or changed customer accounts and are due at time of building permit issuance. For new development, the fee shall be paid based on proposed use and size of structure. For existing development, the fee shall be paid based on the increased demand only (reviewing prior use(s) vs. proposed use) at the current fee rate. Examples of existing development that increase demand include but are not limited to alterations, additions, added systems like irrigation or manufacturing processes, fit-ups, remodeling, renovations or changes in use. Reimbursements will not be made for reductions in demand as future use changes could subsequently increase demand to the original level.

These charges are in addition to water and sewer tap charges (see table of Utility Connection Fees in the Operating Budget Fee Schedule).

For new residential construction, water, sewer and reclaimed water permitting and development fees are based on the total area under roof in square feet for each meter for residential property structures. For residential additions, fees are based on the total area under roof added to the original structure.

For non-residential properties, the fees listed below in Attachment A, Section C are based on commercial development use/type and size of structure (the total area under roof in square feet). For non-residential additions, fees are based on the total area under roof added to the original structure. For non-residential uses not specified in Section C below, the Town will require sealed demand estimates from design professionals indicating peak day water demand (potable and/or reclaimed) and average day sewer demand. The Town of Cary Inspections and Permits Department may be contacted at (919) 469-4043 for questions and/or assistance with development fee calculations.

Utility Connection Tap Fees - Definitions

The Town retains ownership of all meters, meter boxes, vaults, etc.

Type: Refers to the type of utility connection (water, sewer, reclaimed water, or future reclaimed water).

Tap Size: The diameter of the service line tap made into the main line at the connection point.

Full Tap: (All Types)

Includes the labor, equipment and materials needed to make the actual tap and connection to the main line and extend the service line to the property line. Fee includes meter, box and yolk assembly. Fee does not include street cuts or bore charges. Street cuts and bore charges will be added if needed.

Split Tap:

Existing Service - The addition of one or more 1" meters to an existing service line that is large enough to handle the flow requirements.

New Service - At the time of a new service line connection, one or more additional 1" meters may be installed at the same time as long as the service line is of sufficient size to meet the flow requirements.

Meter Only: The cost of the meter, radio, labor and equipment involved in placing the meter in the box or vault. Fee does not include box or yolk assembly.

Well House: The installation of a meter outside a well house for basing sewer charges on the amount of water from the well. Includes the labor, equipment, meter and materials needed to install the meter.

Sewer Tap: Includes the labor, equipment and materials needed to make the actual tap and connection to the main line and extend the service line to the property line. Fee does not include street cuts or bore charges. Street cuts and bore charges will be added if needed.

Street cut, bore and sidewalk/curb cut fees are charged if needed:

Curb Cut - Cost to repair one 10' section of curb removed for the installation of a water or sewer service. Higher charges will apply if more than one section is removed.

Sidewalk Cut - Cost to repair one 5' x 5' section of sidewalk removed for the installation of a water or sewer service. Higher charges will apply if more than one section is removed.

Street Cut - Minimum cost of cutting paved street with minimal digging for water or sewer connection and for repairs to return section back to acceptable engineering standards.

Bore - When time or conditions make it impractical to cut open a street, a bore may be made. The current charge covers up to a 3" water bore or a 4" sewer bore. Any other size will be charged on an individual basis. Bore charges do not include the cost of a sleeve and will be more if a sleeve is deemed necessary under a state-maintained road.

Repeat Call Fee: Charged anytime a second trip is necessary to perform a requested service, including repeat trips for setting meters and final acceptance inspections of fire hydrants.

Fees from the following schedule are charged when the Town performs a water, sewer, reclaimed water or future reclaimed water service tap or installs a water meter only. Any utility connections not included in the fee schedule will be referred by the Inspections and Permits Office to the Public Works Director who, after consultation with the Engineering Services Manager for engineering feasibility, will prepare an estimate of costs. The estimated costs must be paid in advance; any difference between estimated and actual costs will result in either a refund or an additional charge.

Utility Connection Fees Schedule:

Street cut or bore charges will be added to Full Tap services if needed

Vehicle, Equipment and Labor Charges, Per Hour:

Hazardous material emergency charges, natural disasters, and special events costs are internally charged within the organization according to the specific service needed. This section of information is for internal use only as no public use component exists. Most of the respective charges are detailed in this “*Vehicle, Equipment and Labor Charges, Per Hour*” section. For all services provided that are not specifically listed in that section, the Federal Emergency Management Agency’s (FEMA) schedule of equipment rates will be applied. Material and labor costs of personnel responding are not included in the FEMA equipment rates. The actual rates for personnel responding and materials utilized will be added accordingly. Detailed item and cost descriptions of those fees can be found at:

Industrial Pretreatment Program Fees:

The Industrial Pretreatment Program Fee section is in association with the Sewer Use Ordinance - Chapter 36, Article IV, Division 2.

Administrative Fees:

Application Fee - The initial application for an industrial user to discharge to the Town of Cary wastewater system shall include an application fee. This fee is for staff costs in reviewing the application and will not be refunded if a determination is made that the proposed industrial user does not need to be permitted.

Application Fee.....	\$225.00
----------------------	----------

Permit Initial Fee - For an initial permit that is issued to an industrial user to discharge to the Town of Cary wastewater system shall include an initial permit fee. This fee is for staff costs in drafting and meeting with the industrial user for issuance of permit. This fee will be in addition to the application fee for those industrial users that are issued a discharge permit.

Initial Permit Fee	\$275.00
--------------------------	----------

Permit Renewal Fee - Each time a permit is renewed a permit renewal fee shall be collected to cover staff time and resources.

Permit Renewal Fee..... \$250.00

Reinspection Fee – Post initial inspection. If, after a facility’s initial inspection, repeat inspections are necessary to confirm Sewer Use Ordinance adequacy, a reinspection fee will apply for each inspection.

..... \$50.00

Sampling Charges - Normal monitoring of industrial users is performed through a self-monitoring program; however, the Town periodically monitors industrial users based on frequencies established in a wastewater discharge permit. The following charges apply to Town monitoring events, additional Town monitoring requested by any industrial user, monitoring required due to real or suspected noncompliance, surcharge determinations, or identifying wastewater constituents of a sewer user. It is at the Town’s discretion when and whether monitoring or analysis is conducted. The Town also has the discretion of whether analyses are conducted by Town laboratories or by outside laboratories. Town analytical fees are based on daily routine analysis with laboratory operations, special analyses outside of normal laboratory operations will include additional labor charges. Sampling charges generally include a sampling/monitoring fee in addition to individual analytical fees for tests performed.

Sampling, monitoring, or variance fee per visit \$195.00

Portable sampler per 24 hours..... \$60.00

Biochemical Oxygen Demand Test \$17.00

Carbonaceous Biochemical Oxygen Demand Test \$17.00

Ammonia Test \$7.00

Total Kjeldahl Nitrogen \$16.00

Nitrate/Nitrite..... \$9.00

Testing through outside lab..... (costs + 20%)

Any labor charges not outlined above will be billed at actual hourly rate plus 40% for benefits.

Surcharges:

Industrial users discharging into the Town of Cary wastewater collection and treatment system are subject to the following surcharge parameters. Surcharges recover treatment costs of higher strength parameters above a mass-based threshold. Surcharges are in addition to current sewer rates and volume charges. Each industrial user will be required to furnish a water meter or method for measuring the quantity of wastewater discharged. Approval of alternative wastewater measurement methods shall be at the discretion of the Utilities Director.

Carbonaceous Biochemical Oxygen Demand (CBOD) :

for CBOD above 250 mg/l on a mass basis(per 100 lbs) \$21.04
Total Suspended Solids (TSS) for TSS above 250 mg/l on a mass basis(per 100 lbs) \$21.81
Total Phosphorus (TP) for TP level above 7.0 mg/l on a mass basis (per 100 lbs) \$719.70
Total Nitrogen (TN) for TN above 40 mg/l on a mass basis..... (per 100 lbs) \$130.46

Sewer customers located in the Kit Creek Sewer Service Area are subject to the following surcharge parameters:

Surcharge fee costs per parameter will be based on current Durham County surcharge fees and pollutant threshold levels when wastewater is being treated by Durham County. The Kit Creek Sewer Service Area surcharge fees recover costs of surcharge parameters with the Town of Cary inter-local wastewater mutual aid agreement and wastewater treatment by Durham County:

Biochemical Oxygen Demand (BOD) above 250 mg/L
on a mass basis current Durham County surcharge fees
Total Suspended Solids (TSS) above 180 mg/L
on a mass basis current Durham County surcharge fees
Phosphorus for Total Phosphorus (TP) above 5.0 mg/L
on a mass basis current Durham County surcharge fees
Total Nitrogen (TN) above 40 mg/L
on a mass basis current Durham County surcharge fees

Fats, Oils and Greases Control Program (FOG Program):

Each food services establishment (FSE) will pay a monthly fee. This fee recovers cost of program implementation requirements: sampling, site evaluation, compliance determination, and documentation.

This program requires that all FSE's are duly informed of the FOG Control Program and compliance with its provisions.

FSE Monthly FOG Program Fee \$10.00

Pretreatment Program Penalties/Rates:

Each industrial user will be required to pay current fiscal year approved sewer rates and volume charges for wastewater discharges. Each industrial user will be required to furnish a water meter or method for measuring the quantity of wastewater discharged. Approval of alternative wastewater measurement methods shall be at the discretion of the Utilities Director.

Enforcement Response Plan Fees:

TOWN-WIDE PUBLIC INFORMATION FEES:

Any additional items distributed by the Town will be distributed for a fee that represents cost rounded to the nearest dollar.

There will be no charge for photocopies of documents, maps, or standard technical reports unless the cost equals or exceeds \$5.00. Staff has the authority to set minimum limits for all other items distributed.

A special service charge may be charged if the request requires “extensive use of information technology or extensive clerical or supervisory assistance”. The service charge shall be calculated based on Generally Accepted Accounting Principles (GAAP) and shall reflect the actual cost incurred including, but not limited to, the cost incurred for the extensive use of information technology or the labor costs of the personnel providing the service.

Mailing Records Request:

When a request is made for copies of public records, such copied records will be made available for pick-up at the Town, unless the copying of the record is outsourced, in which case appropriate arrangements for pick-up should be made. If a requester desires the copied records to be mailed to them, costs incurred by the Town of Cary for mailing records in response to public record requests will be the responsibility of the requesting party. Costs will vary depending upon the size and weight of the package and the method of mailing chosen by the requester. Unless otherwise requested, records will be sent via first class U.S. mail and cost to the requester will be based on the current rates.

Town-wide Charges for Copies and Certified Copies:

All public records distributed by the Town of Cary will be distributed at the cost to the Town rounded to the nearest dollar. The following schedule is a summary of the current costs for information currently distributed.

As per NCGS 132-6.2, the Town of Cary is permitted to charge the actual costs associated with fulfilling requests for public records, including without limitation, materials for typical, small requests for copies of public records that can be provided during normal working hours. Should the amount of time required to research and assemble the requested information require the use of staff overtime, costs associated with the overtime may also be recovered through a fee. Staff should provide the individual requesting the public records with an estimation of the costs associated prior to staff beginning work on the request. Costs will vary depending upon the amount of time involved and the actual staff performing the work. The detailed costs of materials for copies are below:
